SECTION 1

Getting Started

The Raju Family Dashboard is a private web app shared by four family members: **Raju**, **Joshna**, **Amrita**, and **Shreya**. Everything — photos, tasks, events, and notifications — is organized around these four people, each identified by a consistent color.

Member	Color	Where you'll see it
Raju	 Indigo	Task dots, calendar chips, filter buttons
Joshna	 Rose / Pink	Task dots, calendar chips, filter buttons
Amrita	 Emerald / Green	Task dots, calendar chips, filter buttons
Shreya	 Amber / Orange	Task dots, calendar chips, filter buttons

Navigation

The app has four main tabs accessible from the sidebar (desktop) or bottom navigation bar (mobile):

- **Dashboard** — your family home screen
- **Photos** — photo and video albums
- **Tasks** — family to-do list
- **Calendar** — monthly event calendar

The **bell icon** in the top-right corner (or sidebar bottom on desktop) controls browser notifications.

Works on any device

The app runs in any modern desktop or mobile browser. A native Android/iOS app is coming soon.

SECTION 2

Dashboard

The Dashboard is the first thing you see when you open the app. It gives you a quick snapshot of what's happening today and what's coming up for the family.

Widgets at a glance

- **Today's date** — displayed prominently at the top of the page.
- **Family member cards** — one card for each of the four members. Click any card to filter the widgets below to show only that person's tasks and events.
- **Tasks widget** — shows all currently open tasks with their due dates. Each task row has a colored dot indicating who it's assigned to. Click any task to jump to the Tasks tab.
- **Coming Up widget** — lists upcoming calendar events. Each event shows the date and a colored dot for the member who created it. Click any event to jump to the Calendar tab.

Filtering by member

- 1 Click a family member card (e.g., "Amrita") on the Dashboard.
- 2 Both the Tasks widget and the Coming Up widget instantly filter to show only Amrita's items.
- 3 Click the same card again — or click "All" — to return to the full family view.

Live data

The Dashboard reflects the current state of your tasks and calendar in real time. Any task you complete or event you add will appear here immediately.

SECTION 3

Photos

The Photos tab is the family's shared photo and video library. Media is organized into **albums** — named collections that can represent events, trips, or any theme you choose.

| Creating an album

- 1 Go to the **Photos** tab.
- 2 Click the **New Album** button (top right).
- 3 Enter an album **name** (required).
- 4 Optionally set an **event date** for the album.
- 5 Choose **who created it** from the member list.
- 6 Click **Create** . The empty album appears in the grid.

Create first, upload later

You can create an album now and add photos to it at any time using the "Add Photos" button inside the album.

Uploading photos & videos

The upload flow is a guided multi-step wizard. You can start it two ways: the **Upload Photos** button on the main Photos page, or the **Add Photos** button inside an open album.

Supported file types & limits:

- Images: JPG, PNG, HEIC
- Videos: MP4, MOV
- Maximum file size: **200 MB** per file

Upload wizard steps:

- 1 Pick files** — drag and drop files onto the upload zone, or click it to open your device's file picker. You can select multiple files at once.
- 2 Choose or create an album** — select an existing album from the list, or type a new name to create one on the spot.
- 3 Upload** — each file shows its own progress bar as it uploads. You can see how many files remain.
- 4 Done** — a confirmation screen appears. Click "View Album" to browse the newly uploaded photos.

File size limit

Files over 200 MB will be rejected before uploading. For very long videos, consider trimming them beforehand.

Browsing & viewing

- 1** On the Photos main page, click any **album card** to open it. Photos and videos appear in a grid.
- 2** Click any photo or video thumbnail to open the **full-screen lightbox**.
- 3** Inside the lightbox:
 - 4** Press  or  arrow keys to navigate between items.
 - 5** Press  to close and return to the album.

Keyboard navigation

Once the lightbox is open, you can swipe left/right on mobile or use the arrow keys on a desktop to flip through every photo in the album without closing the lightbox.

Deleting a photo

- 1 Open an album and hover your cursor over the photo you want to remove.
- 2 A **×** (delete) button appears in the corner of the photo.
- 3 Click the **×** button. The photo is immediately removed from the album.

Deletion is permanent

Deleted photos cannot be recovered. Double-check before clicking the **×** button.

SECTION 4

Tasks

The Tasks tab is the family's shared to-do list. Tasks are assigned to individual members, can have due dates, and support file attachments.

| Creating a task

- 1 Go to the **Tasks** tab.
- 2 Click the **New Task** button.
- 3 Enter a **title** for the task (required).
- 4 Pick a family member from the **Assign to** list.
- 5 Optionally set a **due date**.
- 6 Optionally attach files (see [File attachments](#) below).
- 7 Click **Save**. The task appears in the Open section.

| Managing tasks

Mark a task complete / incomplete:

- 1 Click the **circle checkbox** to the left of any task.
- 2 The task moves from the *Open* section to the *Completed* section (or back again).

Delete a task:

- 1 Hover over the task row. A row of action icons appears on the right.
- 2 Click the **trash icon** to permanently delete the task.

No undo for deletion

Deleted tasks and their attachments cannot be restored.

Filtering & due-date badges

Filter bar — at the top of the Tasks tab:

- Click **All** to see every task.
- Click a member's name to see only tasks assigned to that person.

Due-date badges appear on each task row:

Badge	Meaning
Overdue	Due date has passed — needs immediate attention.
Today	Due today — shown in bold amber.
Tomorrow	Due tomorrow — shown in amber.
May 25	Future date — shown in gray.

File attachments

Tasks can carry supporting files — receipts, voice notes, photos, documents.

Supported types & limits:

- Images & videos: up to **200 MB** per file
- Audio & PDF: up to **20 MB** per file

Attach files when creating a task:

- 1 Open the New Task dialog.
- 2 Click the attachment area and pick one or more files.
- 3 Save the task — files are uploaded along with it.

Attach files to an existing task:

- 1 Hover over the task row to reveal the action icons.
- 2 Click the **paperclip icon** .
- 3 Pick files from your device. They are added to the task immediately.

Completed tasks

Completed tasks are shown below the Open section. To keep the page fast, only the 20 most recently completed tasks are loaded at first.

- Scroll to the bottom of the Completed section.
- Click **"Load more completed tasks"** to fetch the next batch of 20.
- Repeat until all completed tasks are visible.

SECTION 5

Calendar

The Calendar tab shows a full monthly view of family events and task due dates. Day cells are color-coded so you can see at a glance what's happening and who's involved.

■ Navigating months

- Click the ← (left arrow) to go to the previous month.
- Click the → (right arrow) to go to the next month.
- Click the **Today** button at any time to jump back to the current month.

■ Reading the calendar grid

Inside each day cell, you'll see two types of chips:

- **Filled color chip** — a calendar event. The color matches the member who created it.
- **Light chip with a dot** — a task due on that day. The dot color matches the task's assignee.

A **member color legend** is displayed below the calendar grid for quick reference.

■ Adding an event

You can add an event two ways:

- Click the **Add Event** button in the top-right area of the Calendar tab.
- Click a specific day cell to open the day panel, then click **Add Event** inside the panel (the date will be pre-filled).

Event form fields:

- 1 Enter the event **title** (required).
- 2 Confirm or change the **date** .
- 3 Optionally set a **start time** and **end time** .
- 4 Optionally add **notes** or a description.
- 5 Pick **family** who is creating the event — this determines the chip color on the calendar.
the **member**
- 6 Click **Save** . The event chip appears on the correct day.

Day detail panel

- 1 Click any day in the calendar grid.
- 2 A detail panel opens on the right (or as a modal on mobile), listing:
 - 3 **Events** — each with a delete button (trash icon) to remove it.
 - 4 **Tasks due** — each with a checkbox to mark it complete or incomplete without leaving the Calendar.
- 5 Click outside the panel (or press ) to close it.

Quick task toggle

You can mark tasks done directly from the day panel in the Calendar — no need to switch to the Tasks tab.

SECTION 6

Notifications

The app can send OS-level browser notifications to remind you about important items, even when the app is in a background tab.

What triggers a notification

- Overdue tasks (past their due date)
- Tasks due today
- Events happening today
- Events starting within 30 minutes

No spam

Each item fires a notification at most *once per day*. Reloading the page will not trigger duplicate notifications.

The bell icon — states

Bell appearance	Meaning
Indigo (filled)	Notifications are enabled. You will receive alerts.
Outline (grey)	Notifications not yet enabled. Click to enable.
Strikethrough	Notifications are blocked by the browser.

A **red badge** on the bell shows the count of urgent items: overdue tasks + today's events.

Enabling notifications

- 1 Click the **bell icon** in the top-right corner (or sidebar bottom on desktop).
- 2 Your browser will ask for permission. Click **Allow**.
- 3 The bell turns indigo — notifications are now active.

Re-enabling if blocked

If you previously clicked "Block" in the browser permission prompt, the bell shows a strikethrough. To re-enable:

- 1 Open your browser's **Settings** .
- 2 Go to **Privacy & Security → Notifications** (exact path varies by browser).
- 3 Find the dashboard site in the list and change its permission to **Allow** .
- 4 Reload the app — the bell should now be indigo.

Browser permission required

Notifications only work in modern desktop browsers that support the Web Notifications API. Safari on iOS may have limited support.

Quick-Reference Card

Dashboard

- Click a member card to filter widgets to that person
- Tasks widget shows open tasks with due dates
- Coming Up widget links to Calendar events
- Click "All" (or the active card) to reset the filter

Photos

- New Album → name, optional date, creator
- Upload Photos → pick files → choose album → progress → done
- Click album to open; click photo to open lightbox
- ← → keys to navigate; Esc to close lightbox
- Hover photo → x button to delete
- Inside album → "Add Photos" to add more files
- Max file size: 200 MB

Tasks

- New Task → title, assignee, optional due date & attachments
- Click circle checkbox to mark done / undone
- Hover row → paperclip to attach files; trash to delete
- Filter bar: All / Raju / Joshna / Amrita / Shreya
- Badges: Overdue (red), Today (amber bold), Tomorrow (amber), future (gray)
- Completed section loads 20 at a time — "Load more" link
- Attachments: images & video 200 MB; audio & PDF 20 MB

Calendar

- ← → arrows to change month; Today button to return
- Filled chip = event; light chip with dot = task due date
- Click day to open detail panel (events + tasks)
- Delete event icon in the panel; checkbox toggles task done
- Add Event: title (req.), date, start/end time, notes, member

Notifications

- Click bell → Allow in browser prompt to enable
- Alerts: overdue tasks, tasks due today, events today, events in 30 min
- Once per item per day — no repeated alerts on reload
- Red badge = count of urgent items
- If blocked: browser Settings → Notifications → Allow site

Member Colors

-  **Raju** — Indigo  **Joshna** — Rose
-  **Amrita** — Emerald
-  **Shreya** — Amber

- Colors are consistent across all tabs
- Legend shown below the Calendar grid
